

Bahamas

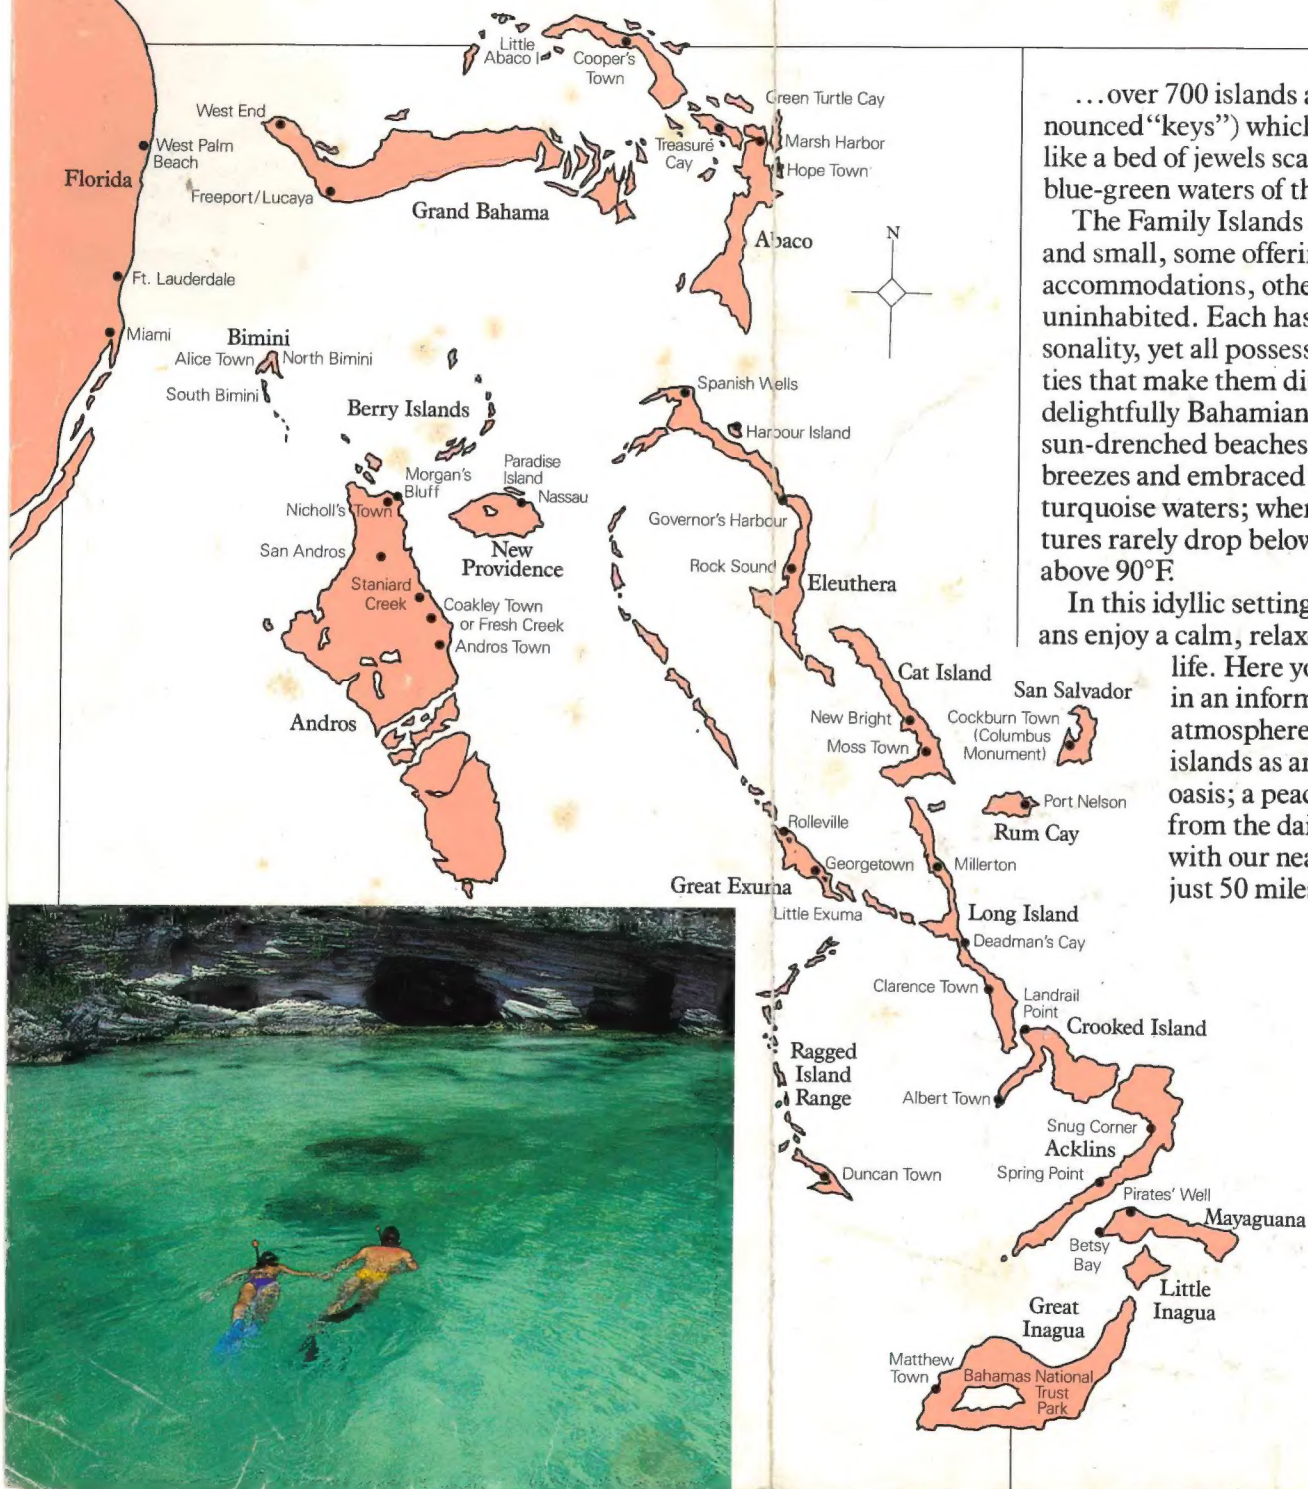

The Family Islands

Abaco, Andros, Bimini, Eleuthera, Exuma, and more ...

You may not want to do it all, but it's nice to know it's there.

Welcome To Our Family Islands

...over 700 islands and cays (pronounced "keys") which lie sparkling like a bed of jewels scattered over the blue-green waters of the Atlantic.

The Family Islands are both large and small, some offering luxurious accommodations, others completely uninhabited. Each has a distinct personality, yet all possess special qualities that make them distinctly and delightfully Bahamian: beautiful sun-drenched beaches cooled by soft breezes and embraced by glistening, turquoise waters; where temperatures rarely drop below 60° F, or rise above 90° F.

In this idyllic setting, we Bahamians enjoy a calm, relaxed approach to life. Here you can unwind in an informal, leisurely atmosphere. Think of our islands as an emerald oasis; a peaceful refuge from the daily routine, with our nearest island just 50 miles from Florida.
